20° CONGRESO INTERNACIONAL DE MATERIALES
SAM-CONAMET2022

S.M 2 AL 6 DE MAYO DE 2022

<http://intema.gov.ar/sam2020>

Menu

Nos complace anunciar que el XX Congreso Internacional de Metalurgia y Materiales, **SAM 2022** y el VIII International Conference On Composite Materials **COMAT 2022** se llevarán a cabo entre el 2 y el 6 de mayo 2022 en el Hotel 13 de Julio de la Ciudad de Mar del Plata

proposed event

+

CONGRESS TOPICS

1. Extractive Metallurgy
2. Casting, solidification and welding
3. Physical metallurgy, heat treatments and phase transformations
4. Material degradation, corrosion and protective methods
5. Thin films and surfaces
6. Mechanical behavior and simulation of mechanical properties of materials
7. Tribology and wear
8. Civil and road construction materials
9. Synthesis and characterization of materials
10. Biomaterials
11. Composite materials (COMAT)
12. Nuclear materials and effects of radiation on materials
13. Nanostructured materials
14. Materials for energy applications
15. Semiconductor, superconductor, magnetic, ionic and other materials
16. Characterization of materials by optical, acoustic and other methods
17. Computational simulation of materials
18. Materials in ancient times and education in materials science
19. Structural integrity, fracture and fatigue
20. Material manufacturing processes
